

The Reverie Saigon Has Achieved GBAC STAR™ Facility Accreditation

Ho Chi Minh City – 30 March 2021 – The Reverie Saigon has announced that it has achieved Global Biorisk Advisory Council® (GBAC) STAR™ accreditation, the gold standard for prepared facilities. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, The Reverie Saigon has implemented the most stringent protocols for cleaning, disinfection and infectious disease prevention in its facilities.

As the cleaning industry's only outbreak prevention, response and recovery accreditation, GBAC STAR™ helps organizations establish protocols and procedures, offers expert-led training and assesses a facility's readiness for biorisk situations. The program verifies that The Reverie Saigon implements best practices to prepare for, respond to and recover from outbreaks and pandemics.

“GBAC STAR accreditation empowers facility owners and managers to assure workers, customers and key stakeholders that they have proven systems in place to maintain clean and healthy environments,” said GBAC Executive Director Patricia Olinger. “By taking this important step to pursue GBAC STAR, The Reverie Saigon has received third-party validation that it follows strict protocols for biorisk situations, thereby demonstrating its preparedness and commitment to operating safely.”

To achieve GBAC STAR™ accreditation, The Reverie Saigon was required to demonstrate compliance with the program's 20 core elements, which range from standard operating procedures and risk assessment strategies to personal protective equipment and emergency

preparedness and response measures. Learn more about GBAC STAR accreditation at www.gbac.org.
