Spa Facilities

Steam & Hydration Experience

The journey commences with a ritual of water and heat,
a prelude to profound calm.

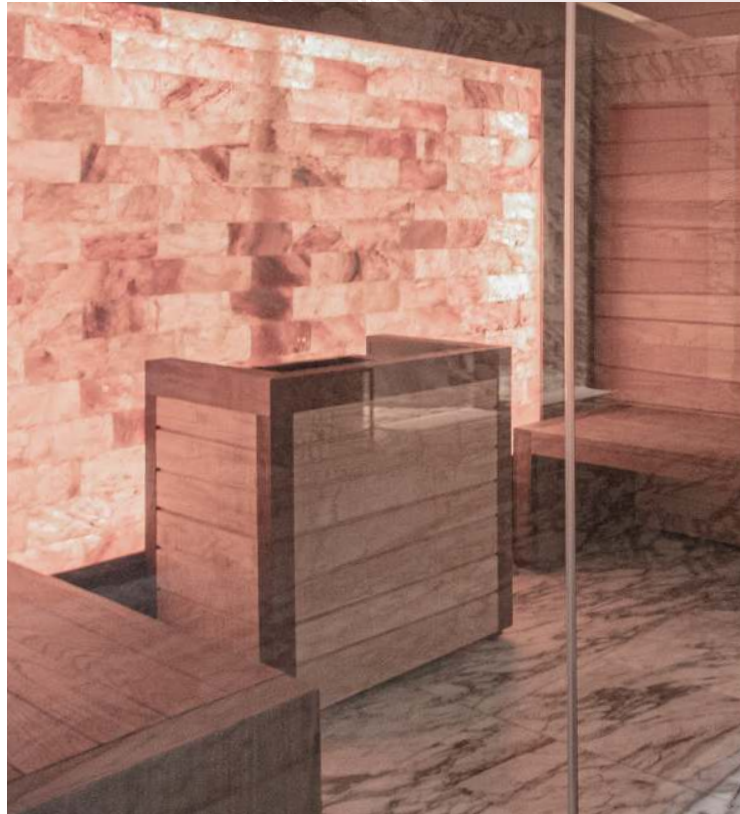

This sensory preparation sets the stage for the Spa's transformative treatments.

The Experience Shower: A convergence of colour therapy, invigorating scents,
and targeted hydro-massage, offering a nuanced sensory renewal

Sweet Steam Pro: The Air Steam System®, designed by Christian Mino,
integrates chromotherapy with eucalyptus-infused steam,
creating an elevated aromatic environment.

Himalayan Salt Sauna

The interplay of mineral salt, oak, and precisely regulated warmth cultivates an environment conducive to both detoxification and deep somatic ease.

Ice Fountain

An essential counterpoint to heat therapy, providing vascular exercise that supports circulation and detoxification.

Fitness Centre & Swimming Pool

Maintain wellness while traveling at the city's premier Fitness Center, featuring the Artis® Technogym line, designed to enhance endurance and optimize health.

Swimming Pool: The Spa's sixth-floor freeform pool is a curated escape, where serene ambiance and the intricate mosaic artistry coalesce, offering a moment of exquisite tranquility.

Plunge Pools: Embrace the refreshing kiss of unheated water, each pool a tranquil expanse of 4.3 by 2.5 meters. Here, wellness blooms and relaxation flows, leaving you utterly renewed.
